NOTICE TO DEALERS

It has been brought to our attention that certain dealers have been irregular in adhering to their weekly quota, notably increasing dealings solely when Egyptian potatoes or Holland onions are available for sale. This practice has resulted in significant irregularities in our stock position at AMB. To address this issue, effective immediately, refunds of Rs 1/kg on above 28 tons dealings, will only be applicable based on past weeks/months average dealings, to ensure equity and transparency in our dealings.

Requests for refunds must be submitted and verified by our Stores and Accounts departments. We urge all dealers to comply with their quota allocations consistently to maintain the integrity of our operations.
