

## **AGRICULTURAL MARKETING BOARD**

### **NOTICE TO ALL STAKEHOLDERS**

In the context of the decentralisation of the National Wholesale Market under the pilot project at the Goodlands Market Parking Area, stakeholders are kindly informed that the first auction sales, initially envisaged for 23 May 2026, are being postponed. A revised commencement date will be communicated shortly.

This postponement is due to certain administrative and legal matters which are currently being finalised to ensure proper implementation and compliance of the exercise.

The Agricultural Marketing Board wishes to reassure all stakeholders that the decentralisation project is **well underway**. It is expected that implementation will commence in **June 2026**, along with the parallel pilot project at the **Flacq Market Parking Area (east)**.

Further details regarding the revised schedule and operational arrangements will be communicated in due course.

The Management regrets any inconvenience caused and thanks all stakeholders for their understanding and continued cooperation.

Management

Agricultural Marketing Board
