COMMUNIQUÉ
PURCHASE OF LOCALLY PRODUCED CARROTS-2026

The Agricultural Marketing Board (AMB) invites local carrot growers to submit their expressions of interest for the supply of local carrots to the AMB. This initiative forms part of AMB's continued commitment to supporting local production and contributing to national food security.

1. Registration and Requirements

Interested growers are invited to register with AMB and provide the following information:

a) Location of the plantation;

b) Estimated quantity of carrots available for supply (in kilograms or tonnes);

c) Expected harvesting date(s); and

d) A representative sample of at least 15 kg for quality assessment.

Growers shall be required to comply strictly with the specifications and quality requirements established jointly by AMB and the Food and Agricultural Research and Extension Institute (FAREI), as detailed in the applicable *cahier des charges*.

2. Assessment and Purchase Conditions

The purchase of local carrots shall be subject to satisfactory quality assessment and AMB's operational requirements. The AMB reserves the right to:

a) Accept or reject produce that does not meet the prescribed quality specifications;

b) Determine the quantities to be purchased from individual growers

c) Determine the applicable purchase price in accordance with its procurement procedures; and

d) Close or suspend the registration exercise, depending on operational requirements.

3. Additional Information

Interested growers may contact AMB for registration, quality and delivery details.

Further details are available on AMB's website- www.ambmauritius.mu .
